Winter 2009

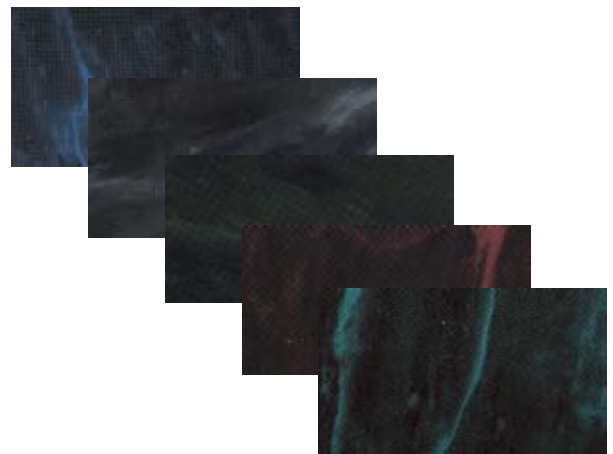

Introducing the 2009 B.F. Catalog

Our new 2009 catalog is here! This catalog features new items: BF Select engraving material, an extended selection of aluminum, brass, & steel, legend plates, JRS Prestige Collection & Xterior Frames, badge reels, and more! You should receive a 2009 catalog no later than March 16, 2009. If you have not received the catalog by then, please contact us.

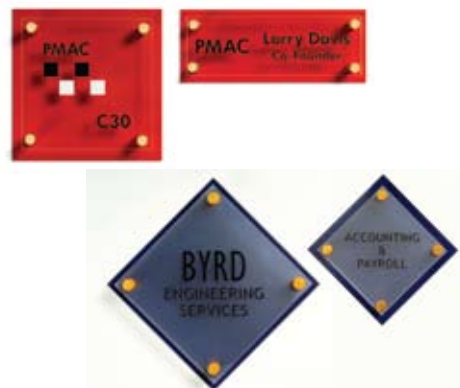

Many additions to our Engravable Metals product line

Due to the increasing demand of engravable metals we have added many new items in aluminum, brass, and steel product lines. There are now five different marble items in Laserable Aluminum and Laserable Steel. We've also included gold and silver Laser-Frost. View all of these items on our website or in our 09 catalog on pages 54-55.

New Sign System: The Prestige Collection Stand-Offs

Architectural Sign Supports are a simple, yet classical manner in which to mount signage while maintaining a high degree of sophistication. The Prestige Collection by JRS includes two sizes manufactured from Brass or Aluminum and available in eight rich colors. Typical uses include interior signage fixtures, personnel ID, departmental ID, directional signs, building directories, and informational or regulatory signs.

We are proud to introduce the new BF Select engraving material!

BF Select

This versatile matte material can be used for both laser and rotary engraving. Its unique .002" non-foiled solid plastic cap layer allows fine, detailed engraving and is extremely durable. BF Select is UV stable and outdoor weatherable.

-  Laserable
-  Rotary
-  Outdoor & UV stable
-  Indoor
-  Front Engraving
-  Reverse Engraving

More legend plate sizes & materials now available

We have added many new sizes and material selections in our legend plate product line. Our legend plates are now available in twelve different sizes. The three materials are: the new BF Select material, Rowmarks Safe-T-Mark and Value Satins. You can view all these Legend Plates on our website or in our catalog on pages 56-57.

We now carry Badge Reels

The newest addition to our badge finding product line is Badge Reels! Retractable badge reels are 1 3/16" w/ a slide clip and work great for hospitals, restaurants, or any place when an employee needs to constantly swipe or use their name or identification tags.

Solid color badge reel colors available: white, black, blue, green, red, gray, silver, & gold.

Translucent color badge reel colors available: blue, green, red, orange, yellow, purple, & clear.

Need frames for outdoor applications?

The new Xterior Frames are precision mitered from a premium aluminum alloy. Available in two 'Hard-coat' anodized colors, Satin Yellow Gold and Satin Silver, each frame is hand assembled utilizing stamped stainless steel corner angles. Frames designed to accommodate materials with thicknesses of 1/16" to 5/16". Typical usages include departmental signage, directional/wayfinding signage and informational signage.

New price list

A new price list for the 2009 catalog is available. Updated date is at the top of each page. Print at your convenience. To save paper, print on both sides of the page. To access the 2009 price list, go to:
www.bfplasticsinc.com/bfpricelist.pdf

Missing color chips?

In the latest swatch books from Rowmark, there are some color chips that may be missing because they were not available at the time of assembly. If you would like to receive the missing chips from your swatch book please contact Rowmark at samples@rowmark.com.
