Designer 2 is a handsome sign system with 1/4" walls, clean square corners, and many features to solve the most difficult sign requirement. Designer2 is molded in 10 sizes and 6 matte plastic colors: **PEWTER GRAY, MEDIUM GRAY, BLACK, WHITE, ALMOND AND BROWN.**

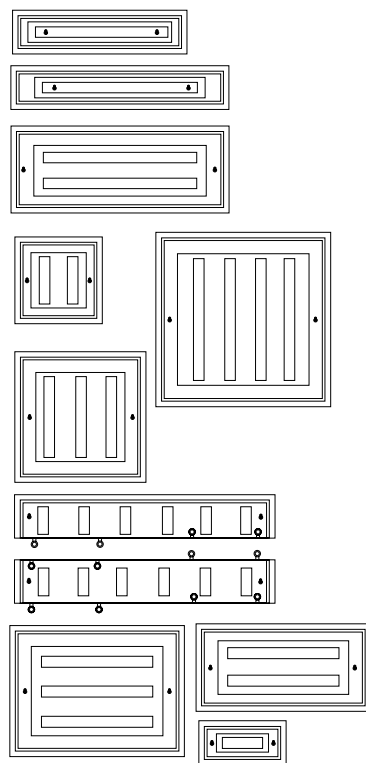

Designer 2 Frames In Molded Plastic

Our DESIGNER 2 FRAME SYSTEM is designed for quality interior signage. Several unique features offered by this system will make designing and mounting interior signage simple.

- Nine sizes in six colors: Pewter Gray, White, Medium Gray, Almond, Brown, and Black.
- One 12" expandable frame that can be extended by adding 2" sections. Plate size starts at 3 7/8" x 11 7/8" to any size in multiples of 2" sections.
- Completely supports 1/16" material so that multiple plates can be used as minidirectories or divided sign messages.
- Plates can be mounted with adhesive-backed 3M DUAL LOCK™ or Sign Snap so that they are tamper resistant but still removable with a suction cup.
- Plates can be permanently mounted to inside of frames with adhesives or two sided transfer tape.
- 1/4" wide divider strips are available in matching frame colors. These dividers can be used for directories or any sign that may require multiple plates.
- Keyhole mounting for permanent or removable frames.
- Pin system that mounts into a frame for hanging frames from fabric office partitions.
- Base that snaps into a 3120 and 3128 frame for a handsome desk sign.
- Double sided frames with corridor bracket
Corridor bracket mounts in two places with concealed screws.

Part No.	Inside Dimension
3120	1 7/8" x 9 7/8"
3140	3 7/8" x 9 7/8"

3220	1 7/8" x 9 7/8"

Part No.	Inside Dimension
3242	3 7/8" x 11 7/8"
3262	5 7/8" x 11 7/8"
3222	11 7/8" x 11 7/8"

AVAILABLE IN BLACK ONLY.

Expandable frame sections fit together by rotating plastic tabs into plastic barrels. These sections can be quick glued together, screwed with #2 flat head self tapping screws, or simply mounted to the wall with each section in succession.

Two end pieces make 4" x 12" (3 7/8" x 11 7/8" plate size). A 2" center section allows the frame to be increased by 2" increments with each additional section.
