Release Date: February 4, 2016

Winter 2016

Greetings!

We welcome this new year with some new products and other exciting things to come. We look forward to another year of helping your company succeed in every way possible.

We hope you find our newsletters enjoyable and informative. Have a good rest of the Winter season and happy engraving!

The Staff at B.F. Plastics, Inc.

New & Improved Engraving Plastic Sheet Discount Structure

We are pleased to announce that we have recently modified our engraving sheet material quantity discount pricing structure. The pricing modifications give you the ability to receive better discounts at lower quantities.

You may mix and match materials to receive quantity discounts. We will cut your material in Half Sheets (24" x 24") and Quarter Sheets (12" x 24") at no additional cost.

- 5-9 Full Sheets: 8%
- 10-19 Full Sheets: 15%
- 20-29 Full Sheets: 18%
- 30+ Full Sheets: 21%

Please be sure to log into your account on our website to view pricing.

Don't forget you can generate Product Price Reports on our website by product description or

item number. This feature is located at the header under "Ordering Tools". [See our website guide for more info](#)

Exciting New Sign Frame Product from JRS!

JRS is proud to have partnered with Vista to offer a sign system with a modern, contemporary appeal in modular curved faced sign frames. Vista System is a world leader in directional / way-finding signage systems. Vista System offers a wide array of way-finding solutions, suitable to meet the special requirements of any signage project.

Vista System advanced way finding signage system is based on the revolutionary MCFT Technology, and was developed with one purpose in mind: To provide sign professionals with the best of both worlds: modular and custom made.

The Vista System frames are made of Aluminum extrusions and can be used with any flexible graphic insert materials, such as paper, plastic, vinyl, thin metals, and even Braille technology graphics. The sign frames are available at many different standard widths and can be provided at any length required.

Employee Spotlight - Get to know Dave

When your order packages arrive nice and neatly packed, you can thank Dave. Dave is coming up on his 23rd year with B.F. Plastics, Inc. Dave has been with BF since June 1993 and does much more than prepare customer's orders for shipments.

He assists with the custom fabrication of custom cut metal plates and manages the supplies for the packaging room and keeps things running smoothly. He also keeps things clean and tidy in the warehouse.

"Dave is one of the hardest working people I have ever met," says Jim Fichter, President. I am still astounded to this day how dedicated and hardworking he is for BF. We truly couldn't ask for a better employee."

In his free time, Dave enjoys reading and spending time with his family. Dave and his wife Stacey have seven beautiful children.

Duets™ by Gemini Complete Line of ADA DuetsTactiles™ and Laser XT Substrates Proven to Resist UV and Corrosive Environments

Duets™ by Gemini is pleased to announce its complete line of engraving, ADA, and

architectural sign substrates have been tested and proven to resist damage caused by exposure to ultraviolet light (UV) and corrosive salt spray. Duets substrates underwent rigorous UV resistance testing with an Atlas™ Xenon Weather-Ometer for 2,300 hours and corrosion testing with the Advanced Cyclic Corrosion Exposure System for 1,000 hours. Upon completion, the results of the testing indicated extensive resistance to both corrosion and UV exposure.

The test included a variety of colors from each product line, including:

- Laser XT Yellow on Black
- Laser XT Brushed Stainless Steel on Black
- DuetsTactiles™: White and Black

Each test featured three samples, one tested for UV, one tested for corrosion resistance and a control sample.

Gemini Announces New Duets ADA Color Contrast Guide

Gemini has recently released their new ADA Color Contrast Guide for the Duets ADA product line. The chart on the inside of this guide compares all of the possible color combinations that can be achieved with DuetsTactiles substrates and appliqué. Choose the color schemes that are compatible with building décor, and the color combination that provides a significant degree of contrast between characters and background, giving consideration to lighting and environmental factors.

This guide also contains basic ADA compliance tips, general laser settings, and specifications for Gemini's ADA Tactiles plastic sheet.
