Celebrating 65 years of serving the engraving & signage industry

We are proud to announce that B.F. Plastics, Inc. is celebrating a 65 year anniversary milestone in business. In 1953, Robert (Bob) Fichter, the founder of BF, began his venture of starting up a signage and engraving business. With his wife Marilyn by his side, he turned his hobby into a successful business. His vision was always to work directly with the customers to make sure they were provided products with the quality they expected.

His son, Jim Fichter, bought the company in 1970 and has grown and expanded over the decades and carries this tradition to this day. The company now employs nine dedicated staff members and many have been with the company for a long period of time. President Jim Fichter says, "In honor of our 65th anniversary, all of us at B.F. Plastics, Inc. want to personally thank our customers for their business and these incredible 65 years of serving you."

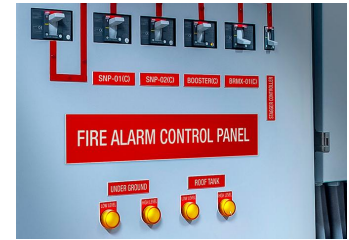

Robert (Bob) Fichter
Served in US Navy
Founder of B.F. Plastics, Inc. in 1953

NEW Dura-Guard™ makes Duets Laser XT even more durable

Effective immediately, the *BF Select* product category has been transitioned to Laser XT with Dura-Guard.

Introducing Dura-Guard, a new feature for Duets Laser XT that dials up maximum durability.

Description	Advantages
Dura-Guard is an acrylic cap with a matte-finish surface, providing exceptional durability for high-traffic wayfinding, exterior branding, long-lasting awards and recognition products, and the rigorous demands of industrial applications.	<ul style="list-style-type: none">• An extra layer of protection• Enhanced abrasion resistance• Easier cleaning after laser or rotary engraving, decreasing production time and providing a clean, crisp look

New Steel Tape size now available

Introducing a 2" x 100' Steel Tape (TX-D) size is now available along with three other popular sizes. The metal tapes (steel) come with 3M adhesive backing and can be used with magnetic tapes. High quality magnetic and steel tapes can be used for temporary signage mounting applications. Magnetic tape is a flexible magnetic strip with a premium grade all-weather adhesive backing.

Frosted Cast Acrylic colors added

[Passion Fruit \(ACF2-H621\)](#) and [Caribbean \(ACF2-H921\)](#) are 1/8" thick with 1-side frost and reverse side matte. These engravable acrylic sheets have a frost or matte finish on one side, to eliminate glare and make the sheet color softer, and are gloss on the other. Frost acrylics are perfect fit for jewelry, retail displays, signage, anything that needs a soft, matte finish color. Weather resistant, UV

stable and lightweight, and polished to a crystal clear clarity. Includes paper masking on both sides giving you the ability to fabricate without scratching.
