Single-pass productivity

Introducing Duets® Selects

New
PRODUCT

The multi-function substrate with superior flatness for one-pass laser engraving Duets® Selects is the versatile, ultra-flat, multi-function substrate that delivers excellent results in a variety of applications. Offering easier, single-pass laser or rotary engraving with outstanding detail, Duets Selects is durable, more productive to work with, and is available in both matte and satin/brush finishes.

Enhanced productivity. Duets value.

From custom wayfinding and name badges to machine legend plates, the quality and easy engraving of Duets Selects offers superior results, faster.

Data Sheet

Duets Selects

Produce projects faster with multi-purpose versatility.

The sheet quality and superior flatness of Duets Selects offers outstanding results and improved productivity with the advantage of single pass lasering or rotary engraving. This premium, impact modified acrylic substrate offers the ideal, go-to solution for varied applications ranging from stunning, highly-detailed signage and wayfinding applications, to name badges, industrial applications and awards. Duets Selects is one of the only single-pass products available in both non-glare matte or satin/brushed finishes to deliver the look you want with the speed you need.

DuetsSelects ULTRA-FLAT / SINGLE PASS LASER OR ROTARY ENGRAVING

APPLICATIONS

- Interior Signage
